

*To support our growth and upcoming business, we are looking for a qualified and ambitious Inside Sales Engineer (m/f) for our sales department at the Lauffen aN site*

## **INSIDE SALES ENGINEER (M/F)**

*Extricom Extrusion is part of the CPM Extrusion Group with locations in the US and China. We develop twin-screw extruders, RingExtruders, compounding systems and produce spare parts for twin-screw extruders.*

### **Your function:**

As the Internal Sales Engineer in our International sales team you will be responsible for the commercial support of International projects and sales offers.

You will be daily in close contact with our different internal departments and with our customers worldwide. You will closely work together with your customers and you will be in charge of the responsiveness of each customer contact request. Your goal is to respond as accurate and fast as possible on incoming customer requests. You are responsible for the calculation of each offer which concerns our top level extrusion machines. The intention is to make an attractive and competitive offer for every customer worldwide.

In your position it is important to build up constructive relationships with all concerning parties and you will negotiate with supply chain stakeholders and customers.

### **Your profile:**

You have finished a degree (Master/Bachelor) in International Business or have another degree which is comparable.

You have a strong knowledge of English, knowledge of another language is a high asset. German is not a must.

You are recently graduated or have just finished your first job and are looking for an attractive new sales opportunity.

You can work under a higher stress level and love working with deadlines.

You have strong communication and negotiating skills and will always try to pursue your goals.

You are hands-on, you have a commercial mindset and you are a strong multitasker.

### **Our offer:**

We offer you an exciting and varied opportunity in an ambitious working environment and attractive compensation.

You can work with a high degree of personal responsibility and you can expect a future-proof position in an innovative company.

### **ARE YOU WHO WE ARE LOOKING FOR?**

Do you want to be part of our team, do not hesitate and let us know why!
